

Send, sign, track and manage documents, all in one place.

A fast, secure and easy-to-use eSignature platform for businesses of every size.

Go paperless

Replace slow, manual signing with a few clicks.

Collect faster

Get signatures from one or many recipients.

Stay in control

Track every document's status from one dashboard.

Stay protected

A complete audit trail for every transaction.

Why LeafletSign

✓ Easy to use

✓ Simple Subscription

✓ Better Customer Support

From contracts to NDAs to forms, signing becomes simple for everyone involved.

Key capabilities

Standard & Custom Fields

Signatures, initials, dates, text boxes, checkboxes and more.

Reusable Templates

Set up contracts, NDAs and forms once, reuse them forever.

Flexible Signing Order

Sequential, parallel or mixed. You decide who signs, and when.

Notifications & Reminders

Automatic status updates and nudges for pending signatures.

Complete Audit Trail

Tamper-evident record of every signing and transaction event.

Custom Branding

Bring your own look and feel to every signing experience.

APIs & SSO

Embed eSignature into your existing apps and workflows.

Built for the Way Businesses Work

Contracts & agreements

NDAs & confidentiality agreements

Proposals & statements of work

HR & employee documents

Vendor & procurement documents

Customer forms

Approval workflows

Internal business documents

From a simple two-party agreement to a multi-recipient workflow, get documents signed faster with less paperwork and fewer follow-ups.
